- Water: 360 g at 200°F
- Bloom: 50 g for 30 sec, then pour in 3 stages over 2:30 min total

Storage

- Keep beans in an airtight container at room temperature, away from light and heat.
- Don't refrigerate or freeze opened beans — moisture will degrade flavor.

6. Order Lookup Procedure

To check order status, the agent asks the customer for:

- Order number (format: **COVE-XXXXXX**)
- Email address used at checkout

The agent repeats the order number back to confirm before looking it up. If the order can't be found, ask the customer to double-check the email — orders are sometimes placed under a different email than the one chatting.

7. Escalation Rules

Hand off to **support@covecoffee.co** with the full transcript, customer email, and order number (if known) when:

- Customer explicitly asks for a human
- Confidence in the answer is low or the question is outside the KB
- Sentiment turns negative
- The topic is wholesale, press, or partnership inquiries
- The customer is reporting a billing dispute or an unauthorized charge
- **Human-available hours:** Monday–Friday, 9:00 AM – 5:00 PM PT.
- **Outside those hours:** Collect name, email, and the question. Promise a follow-up within 1 business day.

8. Wholesale Inquiry SOP

For cafes, offices, or any account asking about bulk pricing or recurring wholesale orders, do not quote pricing. Collect:

- Business name
- Contact name + role
- Email + phone
- Estimated monthly volume (lbs)

- Location

Email the lead to wholesale@covecoffee.co and tell the customer the wholesale team will reach out within 1 business day.
