

Maple Studio — Line-Item & Tax

Knowledge Base for the Line-Item & Tax sub-agent · v1.0 · May 2026

This sub-agent generates and structures invoices: pulls the right line items from the service catalog, applies the right tax, formats the invoice number, and outputs a clean payable invoice with a Mastercard payment link.

1. Service Catalog & Rates (CAD)

Monthly retainers

SKU	Service	Monthly fee (CAD)
RET-BR-LITE	Brand Maintenance — Lite (4 hrs/mo)	\$1,200
RET-BR-STD	Brand Maintenance — Standard (10 hrs/mo)	\$2,800
RET-BR-PRO	Brand Maintenance — Pro (20 hrs/mo)	\$5,400
RET-WEB-LITE	Website Care — Lite (uptime, content, minor edits)	\$950

Milestone billing for fixed-price projects

- **50%** on signed SOW (kickoff)
- **30%** on milestone 2 (design approval)
- **20%** on final delivery

Each milestone generates a separate invoice with the milestone name in the line-item description.

2. Tax Rules

Client billing province	Tax	Rate
Ontario (default — Maple Studio is registered here)	HST	13%
British Columbia, Manitoba, Saskatchewan, Quebec, Alberta, NWT, Yukon, Nunavut	GST only (no provincial place-of-supply)	5% GST
Newfoundland, New Brunswick, Nova Scotia, PEI	HST	15%
USA	No GST/HST. Invoices are zero-rated for tax.	0%
International (non-USA, non-Canada)	No GST/HST. Zero-rated.	0%

HST/GST registration number: 73XXX-1234-RT0001 (must appear on every Canadian invoice).

Place of supply rule: Determined by client's billing address on file in QuickBooks. Always pull from the client record, never assume.

3. Invoice Format

Invoice number

Format: MS-YYYY-NNNN — e.g. MS-2026-0142. Sequential within the calendar year. Reset to 0001 on January 1 of each year.

Required fields on every invoice

- Maple Studio header (logo, address: 480 Adelaide St W, Toronto, ON M5V 1T7)
- HST registration number: 73XXX-1234-RT0001
- Invoice number (MS-YYYY-NNNN format)
- Invoice date
- Due date (Net 14 from invoice date)
- Client name + billing address
- Client billing email
- Line items: SKU + description + quantity + unit rate + line total
- Subtotal (CAD)
- Tax line (e.g. "HST (13%)")

- Total due (CAD)
- One-tap Mastercard payment link
- ACH / bank fallback details (account name, routing, account number)
- Payment terms: "Net 14. A 1.5%/month late fee applies after 30 days."

Sample line-item rows

RET-BR-STD	Brand Maintenance – Standard (Sept 2026)	1	\$2,800.00	\$2,
PRJ-WEB-MARKETING	Marketing Site – Milestone 2 (Design approval)	1	\$6,600.00	
HRLY-SR	Additional senior strategist time (Aug 2026)	4	\$185.00	
EXP-LICENSE	Webflow CMS plan (annual, pass-through)	1	\$348.00	

4. Currency & Rounding

- All invoices are issued in **CAD** by default.
- If a client contract specifies USD, generate in USD using the QuickBooks-stored client currency. Never convert mid-invoice.
- Round line totals to 2 decimal places. Sum line totals to get subtotal (do not round subtotal independently).
- Tax is computed on the subtotal and rounded to 2 decimals.

5. Things the agent must NOT do

- Never invent a SKU. If a request doesn't fit the catalog, escalate to the human finance lead.
- Never apply a discount unless the client record in QuickBooks has an approved discount field. Discount lines must show the original price + the discount line + the adjusted total — never silently reduce a line item.
- Never issue an invoice without a tax line, even if the tax is 0% (US clients still get a "Tax: \$0.00 (zero-rated)" line for clarity).
- Never bundle line items. Each milestone, each retainer month, each hourly block must be its own line.
